TISHAN GUHA ROY

Cyber Security Consultant | VAPT, Red Team & Active Directory Security

KOLKATA, INDIA | +91-9073514123 | tishanguharoy2002@gmail.com | linkedin.com/in/redsxght

SUMMARY

Cyber Security Consultant with 3 years of experience delivering Infrastructure VAPT, Red Team, and OT security assessments. Skilled in Active Directory security, network penetration testing, vulnerability assessments, and providing practical remediation recommendations for enterprise and industrial environments.

WORK EXPERIENCE

Associate (Cyber) | BDO India

Jun 2025 – Present

- Conducted Active Directory and Infrastructure Penetration Testing for an Indian multinational mining company covering 300 plus endpoints; identified critical domain and network vulnerabilities and achieved approximately 80 percent reduction in critical findings through remediation.
- Performed Operational Technology (OT) Security Assessment for an Indian multinational mining organization across 4 to 5 plant sites; conducted vulnerability assessments using Nessus on ICS and OT assets and implemented security controls to reduce operational risk.
- Executed a month-long Red Team Assessment for a private Indian bank; bypassed Network Access Control (NAC), compromised a public facing ADFS portal through credential-based attacks, and escalated access to critical database systems to validate detection and incident response capabilities.
- Led Malware Audit and Infrastructure Vulnerability Assessment and Penetration Testing (VAPT) for a leading Indian Public Sector Undertaking (PSU) bank covering 600 plus endpoints; identified 10 unique critical vulnerabilities and drove significant reduction in organizational attack surface through remediation support.

Cyber Security Analyst | Indian Cyber Security Solutions (ICSS)

Jun 2024 – Jun 2025

- Trained global clients in CPENT and OSCP concepts, boosting their red teaming proficiency by 75%.
- Delivered VAPT (WAPT + NPT) services to clients across industries, reducing their exposure to cyber threats by up to 80%.
- Trained 70+ students in WAPT, Ethical Hacking, and NPT through hands-on labs and live demos, increasing their cybersecurity knowledge by 80%.
- Assessed and improved client cybersecurity frameworks through tailored security assessments.
- Mentored and managed interns, overseeing task delegation to ensure project success.
- Facilitated an intensive 40-hour ethical hacking bootcamp at Swami Vivekananda University, delivering hands-on labs, simulated attacks, and live demonstrations for 40 students as part of an institutional partnership with ICSS.

CERTIFICATIONS

ISA/IEC 62443 CFS (International Society of Automation)	Mar 2026
CRTA (CyberWarFare Labs)	Nov 2025
PT1(Try Hack Me)	Aug 2025
CRTP (Altered Security)	Dec 2024
ICCA (INE)	Sept 2024
eJPT (INE)	Jul 2024
Certified AppSec Practitioner (The SecOps Group)	Jun 2023
CEH Practical (EC-Council)	Jan 2023

SKILLS

Pen testing	: Metasploit, Nmap, Burp Suite, Nessus, Acunetix, OWASP ZAP, Wireshark, API
Active Directory Testing	: BloodHound, PowerView, Mimikatz, Impacket, SharpHound
Scripting Languages	: Python, Bash, PowerShell
Operating Systems	: Linux (Kali, Parrot OS, Ubuntu), Windows
Soft Skills	: Technical Writing, Report Creation, Team Leadership

EDUCATION

- B.TECH CSE | CALCUTTA INSTITUTE OF ENGINEERING AND MANAGEMENT – 9.3 CGPA — Jun 2023
- AISSCE | KENDRIYA VIDYALAYA SANGATHAN – 8.0 CGPA — Mar 2019
